

WinterWillow

Part of WinterComfort for the Homeless Manufacturers of woven willow eco-coffins

We are a Cambridgeshire based Social Enterprise, using our resources to help others undertake training and deliver high quality manufactured products through the development of their skills.

Our social outcomes and expectations are reflected in our ethical and sustainable manufacture and business practices.

Our trading profits go to support the work of WinterComfort For The Homeless - a UK Charity that provides a range of services and support for individuals in need.

We craft, build and sell willow woven eco-coffins.

Made by our weaving team, led by Roger Fowle our weaving tutor - we produce our coffins with passion and care.

WinterWillow

Part of WinterComfort for the Homeless Manufacturers of woven willow eco-coffins

WinterComfort aims to support those who are homeless or at risk of losing their homes by offering them basic amenities, opportunities for educational development and recreation, and a range of services designed to help them achieve greater autonomy.

WinterWillow is a social enterprise. We are driven exclusively by our social mission, applying market-based strategies to achieve a social purpose.

The social business movement includes both non-profits that use business models to pursue their mission and for-profits whose primary purposes are social – all work for the good of a community.

Our charity provides breakfast, refreshments, showers and bathing facilities in the mornings.

A range of support and advice services, as well as activities and skills training through the day.

We host the *Big Issue* in Cambridge too.
